Last week, a short list of language developmental skills that 5 year olds should have was detailed in the school's newsletter. This week, tips are being offered to improve language skills. The tips can be carried out easily at home during normal routines.

1. Actively listen to your child when he or she is talking. Show pleasure and patience when they are being expressive.
2. Give your child 3 step directions at home. Be certain that he or she can follow the directions without you repeating, using gestures, or simplifying them.
3. Ask your child to tell you about his or her experiences at school, the park, or at a friend's home.
4. **READ!** Do not let a day pass without reading to your child. Ask and answer questions about the story.
5. Help your child to sort objects and things (toys, animals, foods, etc.) *(Continued next week 6-10)*
