Second Grade Persuasive Arguments

Bullying is not right

By Ishmael Gonzalez

I think bullying is not right., If you bully in school you will be sent to the bully room and you will have to do a lot of work and you could be in the office.

Bullying is not a good thing because if a kid bullies me, fights with me or tells on me I will get mad and bully the kid and then the kid will be mad.

If you bully in front of the teacher she will not trust you and she will say no to art and no to gym or she will just not trust me.

I think bullying is not right because if you bully you will go to the bully room, the kid will be mad, and the teacher will not trust me.

Ms. Su should be paid more money

by Osvaldo Urena

I think Ms. Su should be paid more money. Ms. Su should get more money because she works hard. She works hard by doing what Ms. Benford tells her to do and by getting us ready for 3rd grade. She works hard by spending 8 hours with us and doing hard work so we can do our tests. She works hard by drawing stuff so we can understand, so we can get honor roll.

Ms. Su should get more money because she treats us nice. She buys McDonalds for us and that is a kind thing to do. She treats us nice because she makes brownies for snack and ice pops. She spends her money on us and I think that is kind.

Ms. Su should get more money so she can buy more clothes. She doesn't have enough clothes. She should buy more clothes so she can look beautiful with her new clothes. I think she should buy colorful clothes. If she will be paid more money she will be rich and live happily ever after and be wonderful to us.
